

ZANE TRACE LOCAL SCHOOL DISTRICT

946 State Route 180 • Chillicothe, Ohio 45601 • 740-775-1355

First, thank you for your patience in dealing with all of these rapid situations we are encountering professionally and personally! We have had so many employees step up and share their willingness to help in whatever capacity we need to help our community get through this pandemic.

The principals and teachers have worked diligently to provide learning opportunity resources for your children while home and will continue to do so. These resources are for parents to help continue their child's(ren) education during the mandatory closure. We feel it is important to provide those resources.

We are working on a meal plan for those who are eligible for the free and reduced application. For those that do not qualify, there are several businesses who have stepped up to help as well and we extend our appreciation.

Obviously, we will not be having staff report to the building, but all staff are monitoring their email daily. If you have any questions or need further clarifications, please do not hesitate to contact them via email. We want to help parents through this difficult situation that we have no control over.

Finally, the district will do our best to communicate updates and additional information as we determine. This is a great time to reconnect families! We get so consumed with our daily lives that we tend to forget the most important aspect in life, our families. I would encourage parents to take this time to play games, read books, and participate in various activities with their children. It might one of the very few positives that come out of dealing with this epidemic!

Thank you and we wish all of our students, families, and community the best!

Sincerely,

Jerry Mowery
Superintendent
